Effective Date Change > 60 Days Attestation

Purpose

This form allows a member who recently applied for **Under 65** coverage to request an effective date more than 60 days after the application signature date, provided the request is made within 30 days of the most recent underwriting or reconsideration decision.

Use this form **only** when both conditions are met:

- The requested effective date is **more than 60 days** after the application signature date.
- The most recent underwriting or reconsideration decision was **issued within the past 30 days**.

The only option available is the next effective date following the most recent underwriting or reconsideration decision.

- App signed 4/10 and underwriting decision was received 6/5. An effective date of 7/1 can be requested however any other request would require a new application.

By signing the attestation, the member certifies that their health status has not changed since the most recent disclosure provided at the time of their application for coverage.

Decision Path – APST/Change vs Eff Date Change > 60 Days

Scenario	Required Form
Requested date is **within 60 days of signature date**	Alternative Plan Selection Transfer Change Form (APST/Change Form)
Requested date is **more than 60 days after signature; later decision issued within past 30 days**	Eff Date Change > 60 Days
Requested date is **more than 60 days after signature; later decision was not issued within past 30 days**	New Application
